LEAD TO ORDER, END TO END

PSM calls and qualifies leads → the Sales person (SM) validates and runs the opportunity → visit → order. Sales also brings in its own opportunities.

WHY LEADS DROP (PSM STAGE)

WHY OPPORTUNITIES ARE LOST (SALES STAGE)

Sales' own deals win 3.6× more often

PSM-sourced opportunities win 1.9%; sales' own win 7.1%.

The handoff leaks

118 PSM-qualified leads never became opportunities; 113 more wait for SM validation.

Price is the top loss reason

“Price Was High” is 56% of opportunities lost.

Fix the data trail

161 open opportunities have no Current Stage; SM field filled on 34 of 698.

Leads = Raw Leads created in the period. Opportunities = Qualified Lead records created in the period. “From PSM” = the lead was owned by a PSM or the PSM field names one. SM = the opportunity's Sales Person, because the separate SM field is filled on only 34 records. Won = Current Stage “Closed”, Order Booked or later. Price = the opportunity's Value (₹ Lacs, excl. GST), or BD Value where that is empty; total price adds 18% GST, as the CRM's Order Total Amount does. Lead value = Value by BD, filled on 615 of 2,889 leads; one lead had 96,909,998 typed into this lakh field (₹9.69 Cr if meant in rupees) and is left out until confirmed. Visits are booked walk-in / meeting dates, so indicative. Bulk imports, Sunrooof and test records excluded. Team detail: PSM snapshot · Sales snapshot.
