LEADS NOT YET QUALIFIED, BY LEAD STATUS

QUALIFIED LEADS NOT YET CLOSED, BY WHERE THEY SIT NOW

BY PERSON sorted by closed deals

PSM (LEAD OWNER)	LEADS	QUALIFIED	DROPPED	VISITS	CLOSED	CONVERSION %
Ishita	660	124	119	68	2	0.3%
Deepak	565	144	331	54	2	0.4%
Sowmya	412	75	61	34	2	0.5%
Sparshan	606	79	166	26	1	0.2%

PSM team: Deepak, Ishita, Sowmya, Sparshan (lead owner). Not counted here: 646 leads in the period owned by others (Ashish 120, Himanshu Thakur 107, Sumeet 103, Abhinav Tomar 83, Harshita Magppie 79, Sakshi 50, Sadhvi 42, Siddharth 23, Shreshta Vyas 18, Arjun 6, Lang Takhel 5, Niveditha Niveditha 4, Magppie 4, Tavneet 1, Anushka 1).

WHAT THE NUMBERS SAY

- **Biggest drop-off is at qualification.** Only 422 of 2,243 leads (18.8%) qualified; 971 sit in “No response / call back” and are neither qualified nor closed out.
- **Qualified leads rarely reach an order.** 7 of 422 qualified leads closed (1.7%); 118 were never converted into a Qualified Lead record and 89 were later marked Dead by sales.
- **Month:** qualification rate rose from 15.0% in Aug to 19.4% in Sep and 22.6% in Oct (MTD). Sep had the most leads (1,041).
- **People:** Deepak qualifies the most (25.5%) and also drops the most (331). Sparshan qualifies the least (13.0%) with 320 leads in no-response. Closed deals are 1–2 each, too few to rank on.
- **Top drop reason:** “Always No Response” (284), then “Just Exploring” (229).
- **Action:** set a close-out rule for the 971 no-response leads (for example, 6 attempts over 10 days, then drop with a reason), and convert the 118 qualified-but-unconverted leads so sales can pick them up.

CRM mapping and assumptions

MODULES

- **Leads** (UI “Raw Leads”): created date `Created_Time`, status `Lead_Status`, owner `Owner`. Links forward through `Converted_Contact`.
- **Opportunity** = Contacts (UI “Qualified Leads”). There is no separate opportunity module. Stage = `Client_Status` (“Current Stage”, S1–S6, Closed, Dead).
- **Orders** = Deals (UI “Orders”), linked to the opportunity by `Opportunity_Name` (“Client Name”). Orders are opened at design stage, so an Order alone is not a win.
- **Visit Module** holds installation, AMS and complaint visits, not sales visits, so it is not used.

LEAD STATUS → FUNNEL STAGE

- **Qualified:** Qualified/ Drawings Awiated, Drawing Received, Create Opportunity, Make Opportunity, Convert, or any converted lead.
- **Dropped:** Junk Lead, Not Interested, Lost Lead, Not Qualified, plus invalid leads (Dead Reason set, Reason for Cold “Invalid Lead”, or Disposition “Invalid Number”).
- **Not yet qualified:** Not Contacted Yet / blank; No Response/ Call Back Later, Attempted to Contact, Not Responding, Cold; Under Follow Up, Contacted, Follow Up, HOT, Warm, Pre-Qualified, Call Initiated, Re-Attempted, Human Intervention Required (AI); Will buy in Future, Contact in Future.

AMBIGUOUS, AND WHAT I ASSUMED

- “No Response/ Call Back Later” and “Will buy in Future” are kept open, not dropped. Dropping them would add up to 1,050 PSM leads to Dropped.
- “Pre-Qualified” is not counted as qualified.
- **Closed (won)** = Current Stage “Closed”, Status Order Booked or later (Handover To Post Design, Update Order Stages, Site Approved For Dispatched, Final Handover…), Actual Closure Date set, or a linked Order at Order Booked or later.
- **Visit done** has no dedicated field. Counted when a Walk-In date, Meeting Date (Qualified Lead) or EC meeting date is on or before 24 Oct, or Disposition is “Visited Showroom”. These are booked dates, not confirmed attendance, and many visits are never entered, so treat the visit count as indicative.
- Sales “qualified” = validated (Current Stage S2 or later, or closed). S1 and blank stage are “not yet qualified”.
- Sunrooof records and records named “test” are left out, as the Monitoring dashboard does.

Assumptions & data notes: date field = Created_Time (IST), 1 Aug – 24 Oct 2026; fetched with paginated getRecords, read-only: Leads 2,999 (back to 30 Jul; 2,934 in period; excluded 11 test record; 34 Sunrooof product; 2,243 PSM-owned), Qualified Leads 2,000 (1,898 in period; excluded 42 Sunrooof product; 2 test record; 109 bulk import 11-12 Aug (old handed-over customers); 1047 bulk import 6 Aug (blank records); 671 sales-owned), Orders 1,800. Reconciles: PSM 2,243 = 677 dropped + 1,144 not yet qualified + 422 qualified; Sales 671 = 157 + 188 + 326. PSM leads include 169 HYD event leads loaded at once on 22 Sep.
